Cable Address: Asgrow

Peas, Dwarf Green Pod and Dwarf Wax Pod
Beans and Michigan Grown Radish are F. O. B.
Mid-Western shipping points.

All other seeds are F. O. B. Milford, Connecticut,
or Salinas, California, as noted, unless otherwise
specified.

TERMS.....

All offerings are subject to prior sale and our
further confirmation on receipt of order.

All containers will be charged extra at cost.

ASSOCIATED SEED GROWERS, INC. gives no war-
ranty, express or implied, as to description, quality,
productiveness, or any other matter of any seeds,
bulbs or plants it sells, and will not be responsible
for the crop.

FOREWORD

PURPOSE

For more than seventy-five years we have been producing vegetable seeds in wholesale quantities for the trade. Increasingly our attention has been concentrated on the task of making these seeds **DEPENDABLE**.

BREEDING

Our aim has long been to develop foundation stocks of outstanding merit by means of careful selection or by hybridization. By single plant propagation through generations of individual cultures we have developed pedigreed strains of new types, and have improved previously existing varieties. Our technical staff headed by a pathologist and geneticist of high standing supported by expert plant breeders of long experience in specialized lines, is continuously engaged in research to combat plant diseases, to insure the healthy condition of our seeds before shipment, and to insure the trueness to type and purity of our strains.

PERSONNEL

The entire process of our seed production is in the hands of our own organization of expert seedsmen who follow with vigilance the operations of planting, field inspection, rogueing, harvesting and threshing and on into the warehouses where the seed is milled and handpicked and the finished product is packaged for distribution.

MECHANICAL EQUIPMENT

Our twenty-eight warehouses are designed for efficient operation and are equipped with modern types of machinery for milling, handpicking and testing the various kinds of seeds. Every mechanical means is employed to minimize the chance of mixtures. Modern, completely equipped greenhouses and laboratories operated by well trained technicians enable us to ascertain the viability of seeds we ship.

BEANS		
<p>Through careful selection and intensive breeding we are producing an increasing number of completely stringless strains. The older, coarser varieties of Beans are being gradually replaced by these choicer, more tender sorts. Our main objective, however, is by these same means to maintain stocks of the standard popular sorts of proven merit, of such purity as to serve the needs of the discriminating planter in a uniformly satisfactory manner.</p>

	SWEET CORN Connecticut Grown <p>Sweet Corn has been a "Leader" with us for seventy years, during which time we have originated many of the best known varieties. Soil and climatic conditions conspire to place Connecticut grown Sweet Corn in a class by itself. Corn grown here matures earlier than western grown seed of the same varieties and produces deeper kernels of greater sweetness and of less noticeable hull.</p>

CONTRACT ORDER AND AGREEMENT

FOR THE SEASON OF 193

This agreement, made in duplicate, this day of 193....., between Associated Seed Growers, Inc. (a corporation) of New Haven, Connecticut, party of the first part, hereinafter called the Seller, and of party of the second part, hereinafter called the Purchaser, Witnesseth:—

1. The Seller agrees to sell and deliver and the Purchaser agrees to accept and pay for the varieties of seeds, in the amounts, at the prices, and subject to the terms and conditions hereinafter set forth.

2. The Seller agrees to plant, or cause to be planted, during the season of 193....., an acreage of land, which will produce, under normal conditions, an amount of seed of the varieties hereinafter named, which, together with the amounts of such varieties of seeds previously grown by, or for, the Seller, and now on hand, will be sufficient to enable the Seller to deliver the quantities of the said varieties herein contracted for, and the Seller agrees to deliver said seeds in good merchantable condition and of good germinating quality on or about 193....., or, when, after harvest time, they are ready for delivery, F. O. B., containers extra at cost.

3. It is agreed that in case of partial or total failure of any or all crops planted or caused to be planted by the Seller for the purpose of producing the varieties of seeds herein named, or, in case of damage to or destruction of, the Seller's seed stocks, before planting, or to the products of said plantings, or to any seed of the varieties herein named now on hand, through fire, accident or otherwise, the Seller shall be obligated to deliver proportional quantities only, and in any event the Seller shall have the right to reserve necessary seed stock.

4. Payment by the Purchaser of the purchase price shall be made either net by a sixty days' acceptance or less a discount of $1\frac{1}{2}\%$ if paid in ten days from date of shipment of seeds: PROVIDED, HOWEVER, that if, at any time, the financial condition of the Purchaser becomes unsatisfactory to the Seller, the Purchaser agrees, upon receipt of written notice to that effect, and upon demand by the Seller, to pay for the seeds forthwith in advance of delivery, less a cash discount of one-half of one per cent. per month from date payment is made to the first day of March next following. In the event that such payment is not made within ten days from the receipt of such demand for payment, the Seller shall have the right to cancel this contract.

5. This agreement, unless signed by one of its executive officers, shall not be binding upon the Seller until confirmed by its home office at New Haven, Connecticut.

6. The Seller gives no warranty, express or implied, as to description, quality, productiveness, or any other matter of any seeds, bulbs or plants it sells, and will not be responsible for the crop.
